# MAKE YOUR OIL LAST LONGER.

INSIDE

Hydraulic  
Long-Life filter

# KONECRANES HYDRAULIC LONG-LIFE FILTER.

## EXTEND THE LIFE OF YOUR OIL.

Thanks to the Konecranes Hydraulic Long-Life filter, you can safely extend the life of your hydraulic oil up to 12,000 working hours. That's nearly three times longer than traditional filters can be trusted to keep your oil clean, a feature that translates into less downtime and more cost savings for your operation.

## HOW THE FILTER WORKS.

The Konecranes Hydraulic Long-Life Filter has a 3 $\mu$  oil filtration, which means that particles above 4 $\mu$  ISO level contamination grades are highly reduced. All you need to do is retrofit the filter to your truck, and replace filtering element with an interval of 4,000 working hours. The filter can be retrofitted to any Konecranes forklift truck, counterbalanced container handler or reach stacker.

## BENEFITS.

- More uptime increasing productivity
- Eco-friendly due to reduced oil waste
- Save on operational costs

## WHAT'S IN THE PACKAGE?

- Filter housing
- Mechanical installation kit
- 3 filtering elements
- Installation guide

## CONTACT.

### HOW TO ORDER.

Talk to your distributor or Konecranes representative to upgrade your equipment today. Please take the opportunity as well to ask us about our Automatic Quality Check feature for instant access to particle and water content, oil temperature and remaining oil lifetime. Learn how Konecranes TRUCONNECT can increase your productivity.
